## PREFACE

---

The following pages attempt to describe, in the restricted space necessary in an auction sale catalogue, the coins and medals forming the magnificent collection made and owned by George H. Earle, Jr., of Philadelphia, a gentleman who has been an ardent collector for many years, selecting his purchases with great care from the large sales that have taken place in recent years, as well as being a liberal buyer by private purchase. The result of his labors and expenditure of many thousands of dollars is here offered, and it is to be hoped that intending purchasers will appreciate the superb collection. Mr. Earle always strived to secure the finest example possible, and the coins speak for themselves; so do not think I am exaggerating when I use the superlative degree so frequently—the condition of the coins warrants it.

It is the finest collection ever offered in this country.

Those which might be mentioned as having a claim to especial distinction are so numerous that it is difficult to know what to select for mention in the brevity of a preface; yet I think the attention of collectors should be drawn to the following—the superb Syracuse decadrachm by Euainetos, the large Greek gold coins, the remarkably fine and extensive line of Roman Imperial gold coins, the 70-ducat piece, 1621, of Sigismund III of Poland; splendid foreign gold and silver coins and gold medals, American Colonial coins—N. E. shilling, Willow, Oak and Pine Tree shillings, sixpences, threepences and twopences, Lord Baltimore shilling and sixpence, splendid examples of the cents of the States, extremely rare early pattern pieces, Immune Columbia, 1785, in silver; 1786 Non Vi Virtute Vici, 1786 Immunis Columbia, etc. The first design for a dollar for the Continental Congress, 1776, in silver, of which but one other is known; 1792 silver center cent, 1792 disme, 1792 Washington naked bust or “Roman head” cent, 1836, 1838, 1839 dollars.

The regular series of U. S. Coins is wonderfully complete, embracing all the Eagles prior to 1804; the Half Eagles are magnificent—10 of 1795,

3 of 1797, and the gem of the series, the 1798, with small eagle on palm branch; 1819, 1821, 1824, 1825, 1826, 1829, 1830, 1831, 1832, 1833, 1834, with motto. Quarter Eagles, 1796, 1797, 1826, 1834, with motto. Three dollars only lacking 1875. Gold dollars, set. Silver, finest 1794 dollar known and three duplicates. Superb examples of early dates, as well as proofs in the later dates, and 1851, 1852; half dollars, three of 1796, four of 1797, all in very fine condition. Splendid quarter dollars, dimes and half dimes. The cents and half cents are superb; those worthy of special attention are too numerous to mention, but just look at the 1793's, 1799's, 1804 and the finest 1796 half cent; the rare dates in the forties. The badges of the Order of the Cincinnati and the George of the Order of the Garter are two objects of note!

Mr. Earle's instructions are to sell to the highest bidder.

I have endeavored to describe the coins as I see them, without favor to the seller or buyer, both of whom I trust will be satisfied that I have done my work conscientiously. Defects, weakness in the striking, damages, etc., have been carefully noted.

Collectors desiring further information or to be informed of the possible prices to bid are requested to communicate with the undersigned, who will be glad to answer all questions in his power.

Bidders will please examine and compare their bids before sending them in, as mistakes made by them will not be borne by the catalogner or auctioneers; also kindly sign your name and attach address. At a recent sale an unsigned bid sheet no doubt caused disappointment to the careless one; who it was I have never been able to discover.

Send your bids in as soon as possible.

I will carefully execute bids entrusted to me for 10 per cent. of the amount purchased—no charge whatever on those lots not bought. Postage or expressage to be borne by the buyer. The auctioneers will execute bids free of commission, but assume no responsibility and require lots bought by them to be paid for prior to removal.

This great collection should have some lots in it to interest every collector receiving the catalogue, and I do hope every one will send in *such bids* as he can make; all will be thankfully received—the large and the small.

The outlay to publish and distribute this catalogue has been very great, and I trust collectors will show their appreciation of my efforts

to please them by either attending in person or commissioning myself or others to execute their bids.

Any one who may receive the catalogue and has no use for it will confer a favor by returning it by express, prepaid, book rates, and I will remit them the cost.

Messrs. Davis & Harvey, the auctioneers, have recently purchased No. 910 Walnut street, which has been refitted to suit the requirements of their business.

Thanking my many friends and customers for their liberal support and loyalty in the past, and striving to merit a continuance of the same, I remain, sincerely,

HENRY CHAPMAN,

Numismatist,

Sun dial, below MIND YOUR BUSINESS within a double circle, in first circle a sun, whose rays shine on the dial; to left of the sun FUGIO; below, E G FECIT (Edward Getz, maker); around in outer circle, CONTINENTAL CURRENCY 1776. R. Thirteen links interlinked, each charged with the name of one of the original thirteen States; in the center, AMERICAN CONGRESS WE ARE ONE, the field between this central device and the rings filled with rays. Of excessive rarity, only one other being known and that not as fine as this, though a very fine example, and was sold to Mr. H. O. Granberg for the sum of three thousand dollars. Morocco case. This is one of the most interesting and valuable coins in the American series, and it is highly interesting to note that the *paper money* issued February 17, 1776, by the Continental Congress for \$1/6, \$1/3, \$1/2, \$2/3 bore the same devices on it, and the dollar values did not, thus causing the inference that it was their intention to issue the dollar in silver, but for lack of the metal printed that and other denominations on paper. They also issued quite a number in pewter, probably for circulation, as they are found in all states of wear. Crosby, plate VIII.

## CENTS.

## STRUCK AFTER THE ESTABLISHMENT OF THE MINT AT PHILADELPHIA.

- 3350 1793 AMERL. Head of Liberty r., with short hair, above LIBERTY, beneath 1793. R. UNITED STATES OF AMERL. In center within circle of 15 links ONE CENT  $\frac{1}{100}$  Edge, vine and bars. Uncirculated. Small dent on reverse edge. Steel color. Sharp, even impression. Extremely rare. *Plate*: Crosby 1-A.
- 3351 1793 AMERL. As last. Extremely fine. Minute nick near y. Slight dent on edge under i and on reverse, minute granulation in field on reverse. Steel color. Sharp, even impression. Extremely rare. *Plate*: Crosby 1-A.
- 3352 1793 AMERL. Very good. A few minute nicks. Even impression. Brown-steel color. Very rare. C. 1-A. *Plate*.
- 3353 1793 AMERICA. Same type as last. Uncirculated. The slightest touch of cabinet friction on highest tips of hair. Sharp, even impression. Light olive. Ex. rare. *Plate*: Crosby 1-c.
- 3354 1793 AMERICA. Head of Liberty with heavy, flowing hair r., otherwise as last. Uncirculated. Minute nick in obverse field and neck. Sharp, even impression. Steel color. Extremely rare. *Plate*: Crosby 3-c.
- 3355 1793 AMERICA. Small head of Liberty, long, flowing hair. Period after LIBERTY and 1793. R. As last. Uncirculated. Sharp, even impression. The planchet on edge to left of date was not quite circular, and while it took the edge design, yet the coin is not a true circle at this point. However, it detracts so slightly that I feel this to be one of the finest specimens of this variety known. Its color is a lustrous, rich brown. *Plate*: Excessively rare. Crosby 4-c.
- 3356 1793 AMERICA. Same variety as last. Uncirculated. The surface has been very lightly corroded, and at some remote time the coin has been cleaned red, which, however, has disappeared except in LIBERTY and in the chain, otherwise light olive. *Plate*.
- 3357 1793 Wreath. Large head of Liberty, with flowing hair; above, in large letters, LIBERTY; beneath 1793, in large figures, above which twig with three leaves, one upright, another on either side.

R. UNITED STATES OF AMERICA, wreath enclosing ONE CENT, below bow of ribbon with which the wreath is tied is the fraction  $1\frac{1}{6}$  denoting denomination. Edge, vine and bars. Die broken on edge for quarter of an inch after *v*. Uncirculated. Original bright red color. Magnificent, even impression, and without doubt the finest known example of the 1793 cent, wreath. This superb coin we (S. H. and H. Chapman) bought about 1880 of the late S. K. Harzfeld, of Philadelphia, who obtained it from an old Philadelphia family that had preserved it in a chamois bag, made to fit it, from the date of its mintage. We sold it for \$200 to the late Hon. George M. Parsons, of Columbus, Ohio, who sold it in a New York sale a few years later, where the late Richard Winsor purchased it for \$200, and at our sale of his collection we again became the owners at \$200, selling it shortly afterwards at an advance to Mr. Earle. *Plate*. Crosby 6-f.

- 3358 1793 Wreath. Same dies as last, the die more broken on edge, showing over LIBER and a small crack on temple. Uncirculated. Pale steel color. Sharp, even impression. Extremely rare. *Plate*. C. 6-f.
- 3359 1793 Wreath. Small head of Liberty, above, in small letters, LIBERTY; beneath, in small figures, 1793; the sprig over date large. R. Same as last. Uncirculated—proof surface; in fact, it would be no stretch of the imagination to call this superb example a proof. The color is a most beautiful light brown. Sharp impression and the finest specimen known. It may be the coin given by Crosby on his Plate II, for I compared the piece with the plate and they seem to be identical. Excessively rare. *Plate*. Crosby 7-f.
- 3360 1793 Wreath. Similar to last, but the sprig over date has smaller leaves. R. Die cracked across, fine scratch from edge to wreath between *FA*. Uncirculated. Sharp, even impression. Light olive. Steel color. Very rare. *Plate*. C. 9-g.
- 3361 1793 Wreath. Same as last. Extremely fine, showing but the slightest wear on the tips of the hair. Sharp, even impression. Light brown-steel color. Very rare. *Plate*. C. 9-g.
- 3362 1793 Wreath. Uncirculated. The impression is wonderfully sharp, though not quite even—on the obverse all the beading is on, though it runs along upper edge, while on lower there is a slight margin outside of it. R. The beading runs almost off on lower edge. A few microscopic granulations in the copper on obverse. Light olive. Very rare. *Plate*. C. 9-h.

- 3363 1793 Wreath. Same as last. Extremely fine, only showing the slightest touch of wear on tips of the hair. The surface shows, under a glass, very fine erosion. Sharp, even impression. Brown color. *Plate*. Very rare. C. 9-H.
- 3364 1793 Wreath. Same as last. R. Die cracked. Extremely fine. Sharp, even impression. Steel color. Very rare. *Plate*. C. 9-H.
- 3365 1793 Wreath. Tall head of Liberty, small LIBERTY and date; the sprig has three upright leaves. Very fine. Sharp, even impression. Light olive. *Plate*. Rare. C. 10-I.
- 3366 1793 Lettered edge. Head of Liberty as before, date and LIBERTY small, twig's leaves turn to right. R. Same type. Edge, ONE HUNDRED FOR A DOLLAR. Very fine. Remarkably even impression. Beading all around obverse. Light olive color. Very rare. *Plate*. C. 11-J.
- 3367 1793 Lettered edge. Same as last. Extremely fine obverse; the reverse not so bold, as the metal went into the head. Has been cleaned red long since; now a pale pink color. Very rare. *Plate*. C. 11-J.
- 3368 1793 Lettered edge. Same as last. Very good. Surface lightly eroded. Black. *Plate*.
- 3369 1793 Liberty Cap. Bust of Liberty r., with flowing hair, a staff and cap of Liberty over left shoulder, above LIBERTY, beneath 1793. Die cracked across from E to right of 3. R. UNITED STATES OF AMERICA, wreath enclosing in center ONE CENT, below bow of ribbon which ties it  $1\frac{1}{10}$ . Edge, ONE HUNDRED FOR A DOLLAR. Uncirculated. Minute nick on edge. Light olive. Probably the finest specimen known of this excessively rare coin. *Plate*. Crosby 13-L.
- 3370 1794 Hays, No. 3. Uncirculated. Splendid, even impression, with fine milling around edge of both obverse and reverse. Pale light olive, with traces of original red. Several very small dark specks, one over the ear. Probably the finest known example and of excessive rarity in this state of preservation. *Plate*.
- 3371 1794 Hays, No. 13. Extremely fine. Even impression. Surface eroded and recolored, now a fine light olive. Pin-head spot of corrosion on reverse. *Plate*.
- 3372 1794 Hays, No. 17. Obverse die cracked. Extremely fine, only the highest tips of hair over ear show slight wear. Sharp, even impression. Reddish steel color. A beautiful cent. Rare. *Plate*.

- 3375 1794 Hays, No. 49. Uncirculated. Sharp, even impression. Steel color, with traces of original color. A beautiful example. From Borden, Anger, Cleveay collections. *Plate.*
- 3376 1794 Hays, No. 21. Uncirculated. Even, but not a sharp impression on the obverse milling. Pale, reddish steel color, partly original red. Very rare. *Plate.*
- 3377 1794 Hays, No. 21. Extremely fine. Sharp, even impression. Light olive. *Plate.*
- 3378 1794 Hays, No. 23. Uncirculated. Sharp, even impression. Obverse light olive. R. Red and this side varnished, probably done many years since to protect the color. *Plate.*
- 3379 1794 Hays, No. 26. Uncirculated. Sharp impression. Reverse has very slight oxidation in three spots, hardly showing. Rich brown color. Rare. *Plate.*
- 3380 1794 Hays, No. 33. Die cracked. Extremely fine. Sharp, even impression. Olive color. *Plate.*
- 3381 1794 Hays, No. 33. Very fine. Steel color.
- 3382 1794 Hays, No. 33. Precisely as last in every respect, but color slightly lighter.
- 3383 1794 Hays, No. 34. Extremely fine. Bronzed long since. *Plate.*
- 3384 1794 Hays, No. 39. Extremely fine, only the two high tips over ear show cabinet friction. Milling not quite even. Beautiful light olive color. *Plate.*
- 3385 1794 Hays No. 45. Very fine. Off center, as always. Minute nicks on neck. Brown color. *Plate.*
- 3386 1794 Hays, No. 46. Uncirculated. Sharp impression. The milling uneven, slightly wider at back of head. Beautiful light olive color, and I believe the finest known of this very rare variety. *Plate.*

- 3393 1795 5 touches bust. Top knot ends right side of T. R. L touches cap. R. Compact wreath of 41 leaves and 10 berries. Very fine. Broad, even milling. Olive. Very rare. *Plate.*
- 3394 1795 "Jefferson Head," so called from the head of Liberty being thought by some to resemble President Jefferson. *Struck* from dies, no doubt contemporaneous, but I consider them to be dies not made by same person who cut the foregoing, as they are crude, while the former are very beautifully made. Edge plain. Very fine. Dark olive. Extremely rare. Its weight is 8 grains more than the lettered edge. *Plate.*
- 3395 1795 "Jefferson Head." As last, but this is a contemporaneous casting, with the obverse fields slightly rubbed down. Very good. Dents on edge. Weight 2 grains less than last and it is a trifle less in diameter.
- NOTE.—I sell these two lots as they are, only guaranteeing them to be "Jefferson Heads."
- 3396 1796 Liberty Cap. Gilbert A. High 6, touching bust. Uncirculated. Sharp, even impression, with even milling. Light olive color and a superb example. Excessively rare. *Plate.*
- 3397 1796 Liberty Cap. Gilbert E. High 6. Extremely fine. Head not struck up sharp, the granulations in the copper not eliminated by the impression. R. Shows the weakness of the center by the EXT of CENT weak, though it shows. Light olive. Excessively rare. *Plate.*
- 3398 1796 Liberty Cap. Low 6, far from bust. Gilbert G, but a reverse not shown by him. Nineteen leaves and four berries on left branch and 18 leaves and 4 berries on right one.
